The White family lives in Spring Side. Mr. White inherited 1 acre of land from his father and bought $\frac{3}{4}$ acre from his aunt. It is all in one piece round the house. The house is a grass one. The cultivation round it is well cared for. Beautiful yams carefully weeded, some bananas supported with sticks, coffee, badoo. "I have 10 children and the eleventh will soon be". Mrs. White was in the kitchen preparing "the samll pot" for breakfast. She was cutting breadfruits to boil them. The eldest son is working in Manchester. The rest are staying at home. Two older sons were engaged in bringing wood. They have some land in the Cockpit, but "it is no use at all, all rocks" They keep goats there - four goats. But when goats are about to have kids, Mrs. White brings them near the house.

"Mr. White is of poor health but mindful husband." Mrs. White looks in spite of her 10 children young. "People say I don't look my age, Mr. White is a careful husband." She is cheerful and does not gumble. "We have to find something to put in the pot - children shouldnt be hungry." She has 8 boys and 2 girls. She thinks it is better to have boys "They are more useful and can better help themselves."
