Percival Macdonal is the youngest of the four Macdonald brothers living in Tad Town. He is known under the nickname of "Dougy".

Percival never married. He had two children with two different women. Both children used to live with him at a time. At present the girl is living with her mother and Percival is living in his house only with his son Winston.

His children.

"Dougy Macdonald he have Winston Macdonald and Clarissa. 'Cubie' Powell was the mother of Winston."

"Clarissa - that's the girl he own him (her) as his. Him got that girl by Judith Roye at Lucy Rowe home". ~~Judith Roye lives at her mother's home; zvx Lucy Rowe~~ Lucy Rowe is the mother of Judith Roye. Judith Roye lives with her mother. Clarissa Macdonald the daughter of Judith Roye is living at present with her mother.

"Call that little girl (Clarissa) "Bouda". (Clarissa) living with Judith Roye."

Dudley Simpson was very amused by the fact that Dougy Macdonald owned Clarissa as his child. It is known that the girl's father was Albert Elliott. This conviction seems to be based mostly upon the child's light colour, which points more to Elliott than to Macdonald's fatherhood. ~~However~~ The girl's mother Judith Roye has 5 children with 4 different men and was in friendship with many men. Simpson implied that Macdonald owned the child because he was glad of having such a "fair" (light skinned) child.

"Albert Elliott was the real father. She is a brown man pickeny, is a higher grade than Dougy. The child come from good source."

Why Dougy owned the child?

"He is a glad man, so he own the child, - glad for it."

His land.

"Dougy has very little land. He work the little land he have and somebody else land. He employ to somebody. Mostly employed to old Charlie Thompson.
