Mr. Carter lives in a grass house between the New Road to Troy and Spring Side. He inherited 1 acre of land from his father in "Barwell" near Green Town. Here he bought 2½ stretch on which he built his house. He lives with his Cl. wife and sister and a nephew. The boy is 17 / ~~it must be~~ he must be another one - not included in the C) The nephew looks a big boy but he is "weak". He fell once and upset something inside. He has pains and the doctor cant help him. Mr. Samuel Carter is a relative to Johnny Carter "The Painless". "Carter and Murray are the biggest families in Warsop." When asked whether he was married he said no, afterwards admitted he lived with a woman. "Mendez. Says he has no children of his own. Is very friendly with neighbours children who come to his house on their way to the spring which is near his house. His expression and manners are exceptionally "distinguished"- polite without servility and friendly without exuberance.
