At about 8 p.m. I was walking up to Mrs Ashman's house when a man overtook me walking my way at the shop on the right hand side after the Allsides turning (Babsie Dixon's?) He said Good evening and walked with me. He said "you dont come down my way yet." He then showed me the turning of the Parochial Road and said his house was the third on the right. I promised to come and see him the next day.

I visited this district today and went past Donald Edwards' house. It is a grass house in the middle of his cultivations. It was shut up and there was no one in the house or on his land. He had gone to work I was told by the neighbours..
