Interview with Muriel Powell.

Muriel is the daughter of Margaret and Michael Powell. Her mother is from Ballards Valley. She came here to live after she was married, she was Margaret Elliott before she was married. Eleven of them live at home in Green Olive.

Muriel is 21. She read to the 6th standard at school.

"Me leave school before me time up. Me parents did want me to study but me no did like it, and could not bother with it. Me stay at home and help."

"This is the first time she is working at the factory. She works in the shed, getting 2/- per day. She started to work at the beginning of the xrop and hopes to work till the end.

She used to work in the packing house, but could not work fast enough to pay her, so she left and went to the shed.

Her feet are deformed, and that makes her very short. She has a child for Ernest Powell. His name is Keith, he is five years old.

"When me parents know that me was going to have a baby they quarrel but me couldnt say anything for me know mw wrong. Ernest did not say anything to them either. Me mother take me to Black River hospital 3 months before the time for me to have baby and me stay there till me have the baby. The father look after him well but we not in company again."

Her father has four houses. Her father cultivates largely, and trades on tobacco in Kingston, he sells at the factory at Heywood S⁺. Sometimes he sells at 3/- per lb.

Her mother sews just for the home. They have a maid from Ballards Valley. The maid is Enid, she is paid 5/- per week.

Informant: Dudley Simpson.

"Esban is living from the father home to the mother home. He don't marry. He have a child by Preston Ford daughter - "Shaggy". The same that marry to Crafton Simpson - down at Bottom. Only one child (has Esban) by Shaggy. No more children. His mother living at Ribbit - at old James Sinclair home. Mother never marry."

outside son: Vivian Powell.

"The other one - Vivian - he married just recently down at Comma Pen and lives there. The girl's uncle have land. Vivian live and work the land. Vivian got no land from him father. Get a piece of land from him old grandfather Sinclair, but him (Vivian) sell it. Living all the time in his mother and grandfather home."

His girl Lillian Rochester

some girls want have the fun, but not the baby.

*Vivi

"Vivian - around 20 - cultivator. He was friendly with other girl before he marry. No children. In friendship with Lillian Rochester - Aaron Rochester daughter - but she died. She was making a baby for Mildward Elliott. The girl was rather foolish. Some of the girls want have the fun, but don't want have the baby. She go to a shop and buy some pill and she took it. And the pill disagree with what was in her and cut everything in her and she was hurried to the hospital and she died in the hospital. But they (the family) really couldn't disclose - that was that had to hide it. Suppose the girl live they would take her to court. You can prevent but you can't - when the baby is on the way. Well - she die."

another girl friend and wife.

"He was along with another girl in Comma Pen. We call her Poonks. And he break with this girl and marry the last one: ~~Wxxxx~~ Witter."

Esban (Boggle) Powell son of Michael Powell & Rebecca Sinclair.

"Samuel Powell; him marry to a girl from Ballards Valley - one Evelyn Stephenson. But him living just besides his father home. Separate house. Got land from his father - the father give him a piece of land to settle on and occupy himself. 3 - 4 years aback him marry. But him have a child with her before he marry."

"Ida Powell - she married to Hendry Ford, Preston Ford son. Just recently - year before last year. She was along with Joseph Powell before she marry to Hendry Ford. Joseph Powell - Jehova Witness - brother of James Powell. He (Joseph) has the shop where they keep Jehova Witness meetings. Joseph is the son of Ellis Powell."

"She was along with Joseph Powell and with Hendry Ford at the same time. Had a baby. She said it was for Powell. Both of them (Powell and Ford) was pulling together. After the baby come out - it was shown - the baby showed - that it was for Ford. Ford is a black man and Powell a brown man, and the baby - was medium. So it showed it was for Ford. The mother is good looking girl with pretty hair and good quality - the baby still come from a lower father. I will tell you the proof: James and Joseph Powell is two brothers. And Ida and Rose Powell is two sister. And Rose Powell have a baby for James Powell and Ida Powell claims she has a baby for Joseph. And the two baby was quite different - one show that is from a low family - and the other is from a higher brown."

"She had another child (with Ford) before she marry. Now all children are for Ford."

"Eustace Powell we call him Pate. Still with the father. Unmarried. Him was along with old James Sinclair granddaughter - we just call her "Noom". He is still with Noom, but he leave her once and had a child with Berisford Simpson daughter: Ida Simpson. But he come back to Noom again, and right now she is making a baby for him. So it will make 2 children". First child with Noom, next with Ida, third (in making) with Noom again.

"Zela-Vine Powell she is in America right now. She never had children before she leave here. She leave in 1944. She was in friendship with Randall Roach. Roach marry Mr. Windwart Elliott daughter Phillis. He married after Zela left."

visit at home. Interv. Margaret and Michael Powell.
10.7. 48. also daughters: Cisiline and Muriel.
T.O.

I paid short visits to this home on a few previous occasions and ~~xxxx~~ met already both Michael and Margaret Powell. Cisiline Powell was also introduced to us by Vincent Powell her fiance. They are to be married on July 18th.

The homestead consists of three buildings: two living houses in each two rooms. The kitchen and buttery. Under a tree a pen for pigs ~~xxxx~~ with a low fence made of boards. A little shed and big catchment and tank.

Mrs. Margaret says that all these buildings were built by Michael's father or perhaps still earlier. When she came to live here, all of them were already there. No new additions were made. She says that before they had children only two of them lived here: her husband Michael and herself.

To-day Mrs. Margaret "Auntie Magg" was busy scraping cassava. Her daughter Muriel was making in the kitchen ~~ban-~~
~~miesixixthekitchen~~ for dinner. When it started to rain we transferred with Mrs. Powell from under the mango tree where we were sitting and went to the kitchen. Michael was busy with his cow and sheep.

Michael Powell is the son of David and Margaret Powell His sister Jane is married to Robert Simpson in Shaddock Hill. His other sister Lydia lives in Exton. Michael didn't travel; he stayed all his life in Bull-Savannah.

Margaret is ~~xxxx~~ from Ballards Valley. Her parents were Eustace and bby Elliott. Margaret was brought up partly in her ~~external~~ grandmother's home and partly in her parents home. Her sisters Josephine ~~xxx~~ lives in Ballard Valley. Also her brother Sam. Two other sisters Mary and Cin derella married and live in Red Bank.

Margaret started to live with Michael over 30 years ago. She says they didn't have children before marriage.

Adelle

Children. Michael Powell had a bastard daughter Violette with Adelle Rochester the sister of Joshua Rochester. ~~Violet~~ is the mother also of John Sangster. She lives at present in Kingston. Violette is living in Kingston now with a man. She had in Kingston a child who is staying at present with the grandparents "Blossom". Blossom was brought up in this household from her babyhood.

Margaret had also a bastard daughter Doris Witter who married the son of Robert Simpson - Michael Simpson. She lives at present with husband and numerous children in "had-dock Hill".

Michael and Margaret had 10 children:
Daughters (listed according to age)

1. Maud called "Icy" she married Albert Dyer and lives in Dunder Hill.

2. Rose married James Powell and lives in a neighbouring house, next to the shop and Jehovah "itness church.

4. Zealvine went to U.S.A. over two years ago. She works in New York. Margaret says she doesn't know what type of work she is doing. Zealvine sends often presents. She writes that she doesn't intend to marry in America but will return to Bull Savannah.

3. Ida married Henry Ford and lives in Ridge.

5. Muriel (Margaret gave me her name as ~~xxxx~~ Sherebelle and the girl told me her name is Mirabelle. I am using the name which is in the Census). Muriel was born with "bent foot". Her upper part is normal and pleasant. The legs are very difformed. The knees very thick and bent on outside. The lower bones of the legs difformed unsymmetricaly. The feet rolled trumpet like. She said proudly however that she can "wear the shoes". Margaret says that the doctor's diagnosis was that she has "scattered bones." When she was born the legs were slightly bent and when she started to walk they became more and more bent. Muriel is the size of a child of 10, though her torso is of normal dimensions. In spite of her difformity she had a child with Ernest Powell (Emanuel Powell's son) The boy Keith stays with the grandparents ~~xxxx~~ in this home.

6. Visiline is the youngest daughter. ~~Shuxvaxx~~ After she finished the B.Sav. school she was taking for a number of years private lessons but failed three times her examination. She is to marry Vincent Powell in a week's time. She is a pleasant girl rather childish for her age. She was a few days ago in Kingston to buy a few things for the trousseau. She stayed with Vincent's sister. She had no idea about her father's cultivations etc. Gives the impression of a middle class girl of Victorian period - knowing nothing beside the house. She can cook though. (she says) The years spent on private lessons seem rather wasted. Her spelling

of which I had a sample, is very poor. She is a charming native child.

Sons:

1. Samuel married Eveyn Stephenson from Ballards Valley. He lives in a separate house above the parental home. According to Mrs. Margaret he is an "excellent mason". He built the little tank behind Laban Rochester's house in which we live.

2. Eustace lives in Comma Pen with a girl.

3. Louis lives with the parents. He is a jockey. For almost 10 years he is riding horses on races. He earns "good money sometimes". His daughter Enid stays in this home. The mother of Enid is Madge Lewis.

4. Lodrick is called "Christmass" he was born on the Christmass day. He is doing a bit of masonry working with his brother Samuel.

The grandchildren living in the home of grandparents:

1. Blossom (probably Merline Bennet) is the daughter of Michael's bastard daughter Violette and "a man in Kingston."

2. Vivia is the daughter of Ida and Henry Forde. Ida married Henry Forde and lives with him now. Why the name of the child was given by Margaret as Powell I don't know. Perhaps she made a mistake. Vivia was born in the Black River hospital. Her left arm was from birth only a little below the elbow. She can move the little bit of the arm below the joint and uses it to pick things etc. It is useful but makes a strange effect. She goes to school, seems to be quite an intelligent child. "Just born like that, no sores, nothing" said Margaret and told Vivia to demonstrate her arm for my benefit and the use she makes of it.

3. Keith is the son of Muriel who has "bent foot" and Ernest Powell. Physically and mentally he is a normal child.

4. Enid is the daughter of Louis the jockey and Madge Lewis.

Additions re family. Michael had another outside child: Esban. His mother is Rebecca Sinclair. Esban lives in this home. The father of the outside child of Margaret Doris Witter was Simeon Witter from Cheapside. Doris was brought up in this house (her mother's and step-father's)

Household arrangements. I haven't seen or heard of a maid mentioned on p. 2 of this F.R. Perhaps she left. While I was staying there, there came a "black girl" who used to work as a maid with Judith Rochester. The maid told me that she is now "with Miss Nancy Powell". She brought some fish for Mrs. Margaret. Mrs. Margaret said that since the trucks collect all the catch from the fishermen in Alligator Pond

and Little Pedro one can't get good fish to eat here. "Only rubbish them leave for us." These fish - about two dozens size of a small herring on a string - will be for dinner to-day. Muriel was backing bammies. She said she will make 12. (The 12th for a grannie who is staying to-day for dinner) The children break the bammies and the crumbs will be for the puppies (which looked very lean). Cisiline was helping a little with preparing cassava flour-sieveing it, but it was Mrs. Margaret and the daughter Muriel who were working mostly to prepare dinner. They say most of the time is taken to prepare cassava. "Sometime we do it every day." Cassava could be used also as a kind of porridge which Mrs. Margaret called "tabioka" It is made of the starch which is washed from the cassava flour, dried on the iron and in the sun.

The first thing Mrs. Margaret teaches the girls is "to draw my tea ~~at~~ my coffee in the morning" Vivia doesn't know yet how to draw the coffee but Blossom can do it quite well.

The washing is done by Muriel with "some woman to help".

When Cisiline marries she expect to cook for her husband. (At present cooking for Vincent Powell is done by his "dummy" sisters in the father's kitchen) The kitchen at the new Vincent's house is quite ready. Cisiline got from her sister in America a cooking book, but she doesn't think she can make much use of it as the ingredients mentioned in this cooking book are difficult to obtain here. "More delicate cooking for cold countries" explained Margaret.

Exactly // I was taken to the room to see the pictures of the sister in America. There is one framed hanging on the wall in colours "~~just~~ like in life" Her complexion on the picture was much lighter than of the members of the family I know. It may be a flattering colouring on the picture, or perhaps she went to America because she was fair enough to "pass for white". In a big frame above the table there are many pictures of the members of the household: Louis the jockey on a horse, another one of Zealahvine before she went to America, Cisiline with a friend etc. and some relations in America.

On the table among the china were some celluloid toys - a green elephant, a little duck - which were sent by Zealahvine from America for the children. They are used for decorative purposes.

Opinion about Kingston. The young couple is going to be married in Kingston, to avoid a too big wedding. If the wedding were here they would have to invite such a lot of family. It would be too expensive. But Cisiline wouldn't like to live in Kingston for good. "Neither Margaret. "You have to buy everything: a pepper, a lime one root of scallion - that simple and spent money." Cisiline said "The cost of living... .. is vey high in Kingston" She finished triumphant/ly the sentence stumbling in the middle, of it.

The land. Michael Powell is not talkative, at least when his possessions are concerned. His land consists of 18 acres. One parcel about 8.ac or more (it hasn't been surveyed) is homeland. He "bought" it from his father, but asked how much he paid said he didn't remember. (which is possible after all as it was more than half a century ago). The other parcel is in the woodlands and was bought from old George Powell.

Cash crops: he planted 4000 trees of tomatoes. He also plants tobacco for sale and buys tobacco from other people to sell it in Kingston. He says the tobacco selling is not $\frac{1}{2}$ "much of a business" he doesn't do it on such a large scale as Joshua Rochester.

From the other crops: 1 acre cassava, yams, corn, peas and cabbage. All this is used at home.

Michael Powell has more stock than the average farmer here: he has two neat cows, 4 sheep, 3 goats 2 pigs. The cows and sheep and pigs are near the house. The goats are kept in the woodlands. He has also a donkey.

We couldn't evaluate which of his enterp. brings more: tomatoes, stock raising or tobacco selling. He is illiterate.

Interv. Merline Bennet and Michael Powell.
19.7.48.
T.O.

Merline Bennet. I met this child on the road going to the home of Samuel Powell the son of Michael. The house of Samuel Powell is some hundred yards above that of his father. Merline led me to the kitchen where the wife of Samuel was busy at making bammies for dinner.

As ~~myx~~ didn't have cigarettes I asked Merline to run to the shop and buy one packet. I gave her 1/-. She brought the pack of cigarettes and I gave her 3d. as I didn't have any more sweets. The 3 d. were taken by Mrs. Powell (Merline's aunt) from the child.

There were many children in the kitchen and I wanted to know who they were. I asked Merline her name. She said "Merline" but didn't say her family name. I asked her who is her mother "Miss Maggy" she said "I am from down ~~the~~ yard". In reality "Miss Maggy" is her grandmother. The mother of the child is in Kingston. I knew Miss Maggy didn't have such a young child, but Merline insisted that Miss Maggy was her mother.

Merline goes to school She is in Standard B. While she stayed in the kitchen of Mrs. Samuel Powell she was asked on many occasions to perform little tasks like to go to shop for oil, to see whether the fish was brought, to bring something from the house. She was like one of the household. Mrs. Samuel Powell told me that Merline is not "quite collective". The child isn't very bright, but she performed all the tasks quite well. I can't judge whether her rather dull answers were the result of shyness, or because she couldn't understand me well or due to her lack of "collectiveness". To many ~~answersvshavvux~~ questions she would answer just "Yes Ma'am" although the questions couldn't be answered by a negation or affirmation.

Physical or mental deficiency is recurring rather often in this branch of the Powell family. (I.e. the descendants of David Powell the father of Michael Powell.)

The cases I know of are: David Powell (son of Joseph Powell, late brother of Michael Powell) delayed reactions, difficulties of expression and speech.

Muriel Powell the daughter of Michael Powell born with difformed legs.

Vivia Powell granddaughter of Michael Powell born without a half of arm.

Lennard Powell grandson of Michael Powell born with a split palate, can't walk and talk being 2 yrs old.

Keith Powell

He also came to the kitchen of Mrs. Samuel Powell His mother is Muriel with the difformed legs. Keith seems however quite normal and cheerful. He also behaved like one of the household: took the baby from the doorway, asked for a bummy and got a piece. He had a wooden wheel and a stick (in the shape of a big spoon) to play with.

Additional information from Michael Powell re his family.

I went to Michael Powell's yard at 7 p.m. to get some informations concerning David Powell his nephew. David forgot the name of his father and I thought Michael might be able to tell me.

Michael Powell was sitting on big logs in the middle of the yard. His son Louis was sitting vis a vis. They have had their dinner already and Michael was smoking a pipe and Louis was rolling a cigar from green tobacco leaves only slightly dried.

Michael is not very fond of talking about his economic activities. However the subject of the family history is very much to his liking.

"Bull-Savannah it is really a few families. Not Thatch Walk - there are black people, but here the brown people there are really a few families: Powells, Rochesters, Simpsons and Elliotts."

"George Powell is the oldest man in Bull-Savannah and the oldest of Powell family. I come next to George Powell in the Powell family."

Michael's father was David Powell the son of Joseph Powell. Michael's mother was Margaret the daughter of Villard Simpson from Chocolate Hole. Michael says that the Simpsons came to Bull-Savannah from Chocolate Hole. David and Margaret had four children: Jane (married to "Joint" Robert Simpson) Lydia who lives in Exton. Michael my informant and Joseph.

Joseph Powell was a fisherman. Michael also used to fish when he was younger. He gave up this trade long ago. "Too hard and you loose too much of the night rest. You have to work hard, once you leave the shore, have to work hard to come back, whether get fish or not."

Joseph Powell got malaria fever and died. Michael explained that "in those days" it was difficult to reach a docotor, the nearest being in Mandeville and "no vehicle to take you". Joseph had only one son - David - with Florence Rochester "Dovy". Other information about David etc. is in F.R. of David Powell.

Cisiline- the youngest daughter of Michael was expected to come back from Kingston where she got married yesterday (Sunday) to Vincent Powell her second cousin. She would go to her husband's house "all ready, kitchen and everything" for her to start her married life.

Another bastard child of Michael.

I discovered recently that Michael had apart from Violet and Esban another bastard child. This is Annella Powell who lives in Green Olive on 3/4 acres of land which Michael gave her. The mother of Annella was Dorothy Francis. (See F.R. 124.)
